

C07 Export & Distribution Pipeline

CI/CD friendly: generate one PPTX, archive a PDF, and publish all slide PNGs as build artifacts.

Distribution Targets

PPTX source

docs/assets/pptx/usage/c07-
python.pptx

PDF export

docs/assets/pdf/usage/c07-
python.pdf

PNG batch

docs/assets/images/usage/c
07-python.png

Reporting pipelines can publish the PDF for review and the PNGs for docs, while the PPTX remains the editable source artifact.
